

## KELLY

This design has a relatively low back and compact arms that make it suitable for use in both residential and commercial situations.

Piping on arm facings and seat cushions enhances the look.

Reversible seat cushions, of tetron wrapped resilient foam, are supported by seat grade elastic webbing.

Back grade webbing is combined with resilient foam to provide good back comfort.

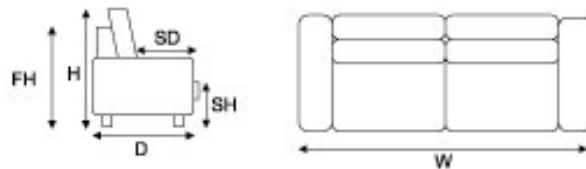

### OPTIONS

Single or double sofa bed option.

### MEASUREMENTS

Depth (D):	830
Height (H):	760
Frame Height (FH):	760
Seat Height (SH):	0
Seat Depth (SD):	0
